

## Galaga

For some people, life is like the Galaga game  
We are a spaceship in the universe controlled by our mind  
We are meeting people and tasks on our way thought life  
We earn money by completing the tasks and helping people  
Sometimes there is a bigger task in our way but it might give more joy  
Sometimes we are hit by a shit storm when we move to new places  
Other times we are showered with gold and diamonds  
Life is about meeting new people and make your life worth living even it might look the same
