

# I am the alien in this world

I walk miles on this earth  
I speak languages on this earth  
I breath air on this earth  
I live my life on this earth

But... I do not understand  
I do not understand you  
I do not understand me  
I do not understand anything

Are we created or born on this earth?  
Are we feeling or painless on this earth?  
Are we alone or together on this earth?  
Are we walking or flying on this earth?

But... I do not understand  
I do not understand you  
I do not understand me  
I do not understand anything

I speak the same as you but I do not understand  
I walk the same as you but I do not understand  
I eat the same as you but I do not understand  
I feel the same as you but I do not understand

But... I do not understand  
I do not understand you  
I do not understand me  
I do not understand anything

I am the alien in this world

I want to scream loudly  
I am the alien in this world  
I want to run away  
I am the alien in this world  
I want to touch you  
I am the alien in this world  
I want to love you  
I... I... I... am the alien in a world where no one really care for anyone and only lives for money  
and fame  
I... I... I... AM THE ALIEN IN THIS WORLD,
