

Soul

My soul is like a ghost in my body

My soul is free as the wind

My soul is wild as the sea

My soul is passion like the fire

My soul is firm like the earth

My soul is everything about me

My soul is nothing to you

My soul is following me throughout my life

My soul is my world

My soul is running through my veins

My soul is my beating heart

My soul is in my mind

And my mind tries to control my soul

But you don't control the wind, the sea, the fire or the earth

So give up and let your life unfold
